

BALTASAR BARBAGLIA

Full Stack Developer

Yerba Buena, Tucumán, Argentina | baltasarbarbaglia@gmail.com | +54 3816416798

[linkedin.com/in/baltasarbarba/](https://www.linkedin.com/in/baltasarbarba/)

PROFESSIONAL SUMMARY

Results-driven Software Engineer with extensive experience in Full-Stack development (React, Node.js) and a strong capability for integrating AI-driven workflows to accelerate product delivery. Proven track record in designing responsive, high-performance web applications and optimizing user conversion paths through seamless API integrations and efficient database management. Adept at translating complex product requirements into scalable digital solutions within fast-paced agile environments. Leveraging advanced AI-assisted development tools to achieve senior-level delivery speed, exceptional code quality, and robust system performance.

PROFESSIONAL EXPERIENCE

Software Engineer Intern | Sovos

December 2025 – Present

- **Full-Stack Development & Architecture:** Engineered high-performance frontend components using **React.js** and backend services in **C# / .NET**, translating intricate IRS regulatory compliance frameworks into seamless user interfaces and executing data migrations via SQL Server.
- **AI-Driven DevOps Integration:** Architected and deployed an autonomous AI code-review agent (**Devin AI**) within Azure DevOps CI/CD pipelines, accelerating Pull Request evaluation cycles and reducing time-to-market under Agile scrum methodologies.
- **Automation & Ecosystem Optimization:** Designed an internal automation tool for mass NuGet package upgrades across enterprise repositories, eliminating manual maintenance efforts and ensuring version consistency across critical infrastructure.
- **Code Quality & Technical Rigor:** Authored comprehensive unit testing suites to safeguard financial and transactional data, maintaining strict version control

workflows utilizing Git and **Conventional Commits** within cross-functional teams.

Full Stack Developer (Part-Time) | Messag

2022 – 2024

- **UI/UX & Frontend Engineering:** Co-developed the complete frontend architecture for "Messag," a B2B SaaS platform for automated collection management, leveraging **React.js**, JavaScript, and Tailwind CSS to deliver high-performance, responsive interfaces that optimized user workflows.
- **Cross-Platform Mobile Development:** Built "AppMessag," a native companion mobile application (Proton, React), enabling real-time generation and visualization of data reports while maintaining a consistent and friction-free user experience (UX) across ecosystems.

IT and Management Intern | Emprendimientos Gastronómicos S.R.L

August 2025 – November 2025

- **AI & OCR Process Automation:** Architected an advanced OCR data-extraction solution by integrating the **Google Gemini API**, automating data processing from complex business invoices and reducing manual data-entry cycles.
- **Data Analytics & Python Scripting:** Programmed automated internal scripts and data analysis tools in **Python**, streamlining personnel tracking and human resources administrative metrics to improve overall operational efficiency.

Administrative and Support Assistant | FALK Impellers

April 2025 – August 2025

- **Operations & Logistics Management:** Managed end-to-end administrative operations and provided technical and logistical support for workshop participants, ensuring rapid resolution of inquiries and fluid operational workflows.

TECHNICAL SKILLS

- **Core Backend & Databases:** Node.js, C# (.NET Core), Python (FastAPI), SQL Server, MySQL, PostgreSQL.

- **Frontend & Web Engineering:** React.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, UI/UX Implementation.
- **AI Engineering & Prompting:** LLM Integration (Google Gemini API), Autonomous AI Agents (Devin AI), AI-Assisted Workflows (Cursor Agent Mode), Advanced Prompt Engineering.
- **DevOps & Infrastructure:** Git / GitHub, Azure DevOps, CI/CD Pipelines, Docker, Unit Testing, Agile (Scrum), Conventional Commits.

EDUCATION

- **Bachelor's Degree in Computer Science** | *Universidad del Norte Santo Tomás de Aquino* (2022 – Present)
- **High School Diploma in Economics and Organizational Management** | *Colegio F.A.S.T.A María Boisdron* (2005 – 2019)
